A Stand for **LIFE**

NO ONE IS EXEMPTED, ACT NOW!

Depression & Frustration

Heart Break

Career Pressure

HOW TO SAVE A LIFE?

- You don't need to be a PROFESSIONAL.
- Respond to your passion for people's life.
- Show CONCERN and ENCOURAGEMENT to the victim.
- QUESTION the victim.
- PERSUADE the victim.
- Refer the victim to an APPROPRIATE counseling if need be.

WRONG BELIEFTS ABOUT SUICIDE

- People believe wrongly that if a person says he/ she will commit suicide, they will not do it in reality.
- Others believe wrongly that confronting the victims of suicidal tendency **INCREASES** the risk of suicide.
- Only **EXPERTS** can prevent suicide.
-

PEOPLE ARE ASSETS WHEN THEY DISCOVER & ACCOMPLISH THEIR PURPOSE IN LIFE.

We can't afford to lose them to suicide.

WHY THE NEED FOR ANTI-SUICIDE CAMPAIGN?

TO SAVE & INSPIRE LIVES ...

MISSION

- TO SAVE A LIFE
- TO INSPIRE A LIFE.

Bangalore has been on an ever increasing rise of suicidal cases that seem to threaten our society in a strong way.

People of all class, age, castes, languages and tribes have been a prey to this. So we as individuals saw the need in the society and came together to bring awareness measures that would help us to stop suicide and inspire people to live and not destroy themselves.

Nothing was created for Self destruction...

DID YOU KNOW?

Suicide robs our **ABILITIES** that each one of us was uniquely born with.

If our **PARENTS** had committed suicide you and I would have not existed.

In India freedom would have merely been a dream for you and I if **MAHATMA GANDHI** had committed suicide!

We could not have enjoyed the benefits of electricity today if a scientist like **MICHAEL FARADAY** had committed suicide! Just because of his socio-economical problems.

MAKE UP YOUR MIND TO LIVE

What would have happened if a writer like **SHAKESPEAR** had committed suicide?

YOU can handle bitter experiences like rejection, failure in education, failure in relationships etc if you can **make up your mind**.

Life's challenge doesn't come to destroy us but to make us experienced and strong.

SHOCKING DISCOVERIES

Alcohol, smoking, drugs, similar habits are **indirect organised suicidal actions**.

WHERE IS THE RICHEST PLACE ON EARTH?

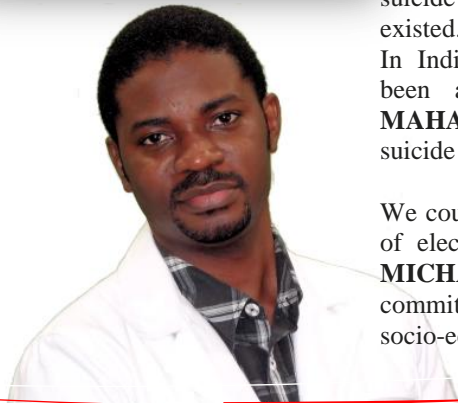

GRAVEYARD is the richest place on earth, because people with **UNSEEN, UNDISCOVERED, UNUTILIZED** potentials, ideas & creativity die with their abilities; from babies to adults. These are stars, artist, scientist and great men that were never seen on earth.

LOVE

TRUE LOVE inspires you to live and become who you were born to be. **OBSESSION** in the name of love leads to suicide and all its likes.

YOU DON'T need to be a professional to save people from suicide attempts.
DO NOT, under any circumstances, leave a suicidal person alone.
TAKE ANY SUICIDAL talk or behavior seriously.
PEOPLE ARE ASSETS when they discover & accomplish their purpose in life. *We can't afford to lose them to suicide.*

"You don't need to be a professional to feel life's real situations and respond with help"

- Edmonds Oworode
